EX-CZAR NICHOLAS SLAIN; ALLIED SIBERIAN VICTORY

(BY ATLANTIC CABLE AND A. P.)

COPENHAGEN, June 25.—Russian Red Guards have broken into the residence of Nicholas Romanoff, the former Russian Emperor, at Ekaterinburg, and murdered him, according to the Russian newspaper *Vjia*, says a Stockholm dispatch to the National Tidende.

A dispatch received in Berne on Saturday quoted the *Zeitung Am Mittan* of Berlin as saying that the former Russian Emperor had been transferred from Ekaterinburg to Moscow safe keeping. The former Emperor and the Empress and one of their daughters were transferred to Ekaterinburg from Tobolsk on May 4. Czecho-Slav troops who have been operating on the Siberian railway have been reported in the vicinity of Ekaterinburg.

LONDON, June 25.—The city of Irkutsk, Siberia has been captured by Czecho-Slovak troops under Gen. Alexieff, according to Berlin advices received in Copenhagen and transmitted to the Exchange Telegraph Company. [Gen. Alexieff is the former Russian commander-in-chief.]

GERMANY ON EVE OF MAKING HER MIGHTIEST ONSLAUGHT.

(ATLANTIC CABLE—EXCLUSIVE DISPATCH)

PARIS, June 25.—Germany is on the eve of making her greatest onslaught since the beginning of the war. All indications gleaned by the intelligence services of the Allied armies lead to the conclusion that the offensive will be a double one, in which 162 divisions will participate and which will be directed against Amiens and Paris.

The blow may fall at any hour now.

The enemy has made most elaborate preparations. Behind his lines countless new ammunition dumps have been placed, field hospitals erected and aerodromes built.

The disposition of the entire German army on the west front, from Montdidier to the sea, is ominously significant of mighty events at hand.

in their ability to deal with them separately if England and America can be brought to see advantage to themselves of accepting such peace terms.

Other features of Von Kuehmann's speech are declared by officials to be nothing more than a patriotic meeting. The convention which opened here tonight with a patriotic theme.

Referring to the German Minister's declaration that "Germany could not bind herself to any peace in regard to Belgium," it was pointed out that this statement was evidently made in answer to the comment made recently in the House of Commons by Foreign Minister Balliol that nowhere had Germany officially declared her willingness to evacuate Belgium.

POISONED FOOT LAYS UP MITCHELL.

Roy Mitchell, who has been pitching fine ball for the Tigers lately, returned to Los Angeles yesterday with a poisoned right foot. While on the way to Sacramento with his team last week he contracted blood-poisoning through the cracking of his toe. The toe took hold but did not trouble him for several days. He was laid up in bed in Sacramento for a day or two, but soon began to injure to heel by the end of the week and will be ready to take his turn in the box when the Bengals hook up with the Angels here next week.

DRAFT CONTINUES TO HIT McCREDIE'S BEES HARD.

JACK COOK, secretary of the Salt Lake baseball club, arrived here with the team Tuesday. He had the following to say last night to the Times representative at the ball park: "Twilight baseball in Salt Lake and San Francisco is a decided success. In all cases it has doubled the attendance. We expect to give evening baseball in Salt Lake until the first of September. We started our games at home at 7 o'clock, but will have to begin earlier on and on the latter part of the day, will probably make them tonight at 8:15 o'clock."

"We lost Paddy Sipkin in San Francisco through the draft. At the end of this week Chapelie and Levenson will be taken from us. We will be hard to replace. Ryan will take Chapman's place when the latter leaves, so we won't be handicapped much by Larry's absence."

"As regards Farmer, he has been awarded to Cleveland, the board of directors, and we may be called on any time to turn him over to that club. The Farmer agreement was only a verbal one. We went to receive him in exchange for Farmer, but the Mormon never showed up. We are going to have a tough time to get

(ATLANTIC CABLE—EXCLUSIVE DISPATCH)

WASHINGTON, June 25.—The first division of the American army landed in France one year ago tomorrow, eighteen days after Gen. Pershing reached French soil. In the twelve months that have since elapsed, this division has grown to an army in size and by July a million men, all told, will have been sent forward.

Behind this million, another 1,000,000 men are in camps and cantonments. Behind these a third million will rapidly fill the gaps left as the divisions sail.

Secretary Baker estimated to-day that between sixty-five and seventy per cent. of the men al-

ITALIANS DRIVE LAST HUNS FROM WEST BANK OF PIAVE

THE Italians have cleared the remaining Austrian rear guard from the west bank of the Piave River and are in possession of the entire river front from the Monte Piana to the sea, says the Associated Press. At last accounts their forces which crossed the stream in pursuit of the retreating Austrians were still harassing them, inflicting heavy casualties and forcing the enemy to continue his disorderly retreat.

Piave has turned somewhat in favor of the Austrians, but the Italian front again rises and some of the pontoon bridges the Italians had thrown across the stream have been carried away, making impossible a quick pursuit and the crushing of the Austrians, which Gen. Diaz had counted upon. The Austrians are declared to be rushing up reserves from the east.

The Austrian War Office admits a reverse along the Piave, but announces that the retrograde movement has been carried out in accordance with plans and without loss of material.

Holding the upper hand along the borders of the Venetian plain, the Italians have turned on the offensive against the enemy in the mountain region and are attacking on various sectors. Notable gains of ground have been made and, in addition to heavy casualties inflicted on the enemy, a large number of Austrians have been made prisoner and sixteen machine guns have been captured, according to Rome. The Austrian War Office, however, asserts that all attacks in this region were repulsed.

FIGHTING HAND-TO-HAND, OUR MARINES ROUT HUNS.

Americans Advance Line South of the Village of Belleau, Take Guns.

BY EDWIN L. JAMES.

(ATLANTIC CABLE—EXCLUSIVE DISPATCH)

WITH THE AMERICAN ARMY ON THE MARNE, June 25.—American forces advanced their line south of the village of Belleau last night a distance of 200 to 400 yards on a front of one kilometer, capturing five machine guns and routing the Germans out of several hidden gun nests.

The fight, which lasted four hours, was not accompanied by artillery or gas fire, and was mostly close hand-to-hand fighting, which is the kind Americans most prefer. It was fought as such as seldom occurs in this war, where usually the trench positions are so well defended that barages can be laid down by both sides to a matter of inches.

Last night the Germans got the nature of the terrain prevented them from commanding the hill. Here a dead German gunner was found seated in the crook of a tree, his hand still resting on the machine gun, slung from a pulley and carefully counterbalanced by a doggedly commanding direction. This German had sat at his post until an American got him.

Another machine gun was found on a cleverly concealed platform in a tree, while another tree a one-powdered was missed until it put it out of commission.

Preceding the advance of our infantry, the American artillery had put down a heavy bombardment on the German positions in the wood, and the gunners had observed the effectiveness of the shells.

A few hours after the successful American operation, the Germans got no more than a light gas attack on one section of our line.

More fighting for the possession of the hill at the northern end of the Marne followed. The hill at the northern end of the Marne had been able to establish some machine guns which were popping against us.

Our men advanced against these positions and discovered that to the north of the woods the Germans had established a strong line position. We advanced close to this and are holding our positions close to the Hun.

The hill at the northern end of the Marne is held by the Germans, who are at liberty to shell us.

The Americans last night found

The Kaiser Decides to Fight it Out in France Rather than Send Reinforcements to South.

(ATLANTIC CABLE AND A. P.)

ROME (Monday) June 24.—American troops will be in Italy probably early in July, according to notification given to the Italian authorities by State Senator Cuillo of New York, who is here on an official mission.

The announcement of direct participation of American units alongside the forces now fighting in Italy has produced an encouraging effect.

WASHINGTON, June 25.—On the face of the latest news from the Italian front, it appears to many observers that the Austrian army, as an offensive weapon, is not to be seriously considered for months.

**GERMAN PLOT REAL
ER, COMMONS TOLD.
Spart Says Enemy Message
Sent Back and Forth.**

ATLANTIC CABLE AND A. P. J.
—Edward, Secretary for Ireland in the House of Commons, said he was satisfied the plot against the British government had been discovered and that they would be held responsible.

The government's report of German submarine activities during the war was submitted to the House of Commons by Mr. Lloyd George, Minister of War, on June 26.

Mr. Lloyd George said he was satisfied that men of all political parties and religious bodies were assisting in recruiting, instances being given of one man who had signed the conscription declaration, and Col. G. H. Wilson, agent against the British in the South African War.

The Lord Mayor of Dublin announced yesterday that he had visited the American Ambassador in London and presented to Ambassador Bryan the address of the anti-conscription conference to President Wilson. He took this course, he said, because the delegates refused to let him go to Washington unless he first submitted the address to the Viceroy of Ireland.

The Roman Catholic hierarchy, he said, "has gone to lengths in opposing conscription which no organized modern community ought to tolerate for a moment. If you have all that power, all that influence and humiliation, you are crawling on your knees to a particular church."

Mr. Lloyd George appealed to Edward to show the same spirit in dealing with the Ulsterites, and particularly "in using his very great abilities and unrivaled influence in Ulster to try to secure some measure looking to the winning over of the Ulster people to Imperialism."

The government, he said, stood by the policy it had proclaimed April 9, but in the method of administration it was the government and not Edward, he said, that had interfered with the administration of Ireland.

Sir Edward Carson, the Ulster leader, said that if the Premier believed in the Ulster order to carry on the war, in trying to bring Ireland into conscription, thereby incurring a grave political risk breaking a past truce and bringing the foundations of the Ulster party, he ought, in taking this desperate course, at least to have determined to go right through with it.

JEWISH LEGION ONLY BEGUN IN PALESTINE

EIGHT THOUSAND THERE AND FIFTY THOUSAND MORE NOW ON THE WAY.

BY A. P. NIGHT WIRE.

PITTSBURGH, June 25.—The present Jewish legion of 8,000 men now fighting with the Allies for the complete conquest of Palestine, but the number of forces involved is great, with force the national standing army of the coming Jewish republic, was one of the most important points discussed today during a session of the Jewish Legion here.

Every Jew who has enlisted in the legion from the United States has pledged to remain in Palestine the rest of his life, according to Dr. Newman of Philadelphia, who has plans for the formation of an army.

Gen. Brocman White, chief of the British recruiting officers in the Holy Land, told the session that he had not officially received word that 16,000 American Jews are now in Egypt on the way to join the legion already with Gen. Allenby in the Holy Land.

GERMANS VISIONED
PLUNDER OF PARIS

PROMISES OF FAT LIVING
TO LURE THEM IN JUNE
ATTACK.

BY A. P. NIGHT WIRE.

WASHINGTON, June 25.—Plunder of Paris and loot from the countries were some of the promises made to the German soldiers before the attack on France.

A German deserter related how the officers, during the retreat which preceded the battle, painted in advance in a rich country where the men could live in abundance and compensate themselves for hardships. He said that men were taken to quarters and supplies provided, but soldiers learned that "there was not to be renewal among the guard of the regiments." Including Villers-Bretonneux, where the valiant garrison of this division, breaking into the town, became so intoxicated that they refused to follow their officers.

Before the attack, the front guards complained that reserve regiments were sent to the front instead of those who would have first choice of the best of Paris.

MORE JABBERWOCK
BY VON HERTLING.

BY A. P. NIGHT WIRE.

AMSTERDAM, June 25.—Speaking in the Reichstag today Imperial Chancellor Count von Hertling told President Wilson that might might form the basis of a general war.

No utterance of President Wilson whatever followed that there is no object in spreading further the threads of war.

There are still less object in statements since there have been no statements, indeed, made in the U.S. especially from America.

It is clear what is to be understood by the slogan of peoples or a people for the maintenance of freedom and justice.

PASADENA, June 25.—For the second time within a month the Annandale Country Club has undertaken reorganization plans, this time effectively, according to officials of the club, who say that the announcement of the election of W. The other officers are C. E. Flint, second vice-president and secretary; Frank Flint, first vice-president; W. A. Barnes, treasurer; and B. D. Hayes, as "sewer farm" is being watched with interest by the people of the three cities who see looming an important source of revenue. At Needles, the gauge is stationary at 13.4 feet, and there is hope that the crest is passing that place and will be at Yuma in from two to three days.

CALEXICO, June 25.—The wooden floor of Sharp's Heading, seven miles east of Calexico, gave way at 9:15 o'clock this morning and the entire flow of the main canal of the Imperial Valley irrigation system is pouring through the breach. General Manager Clarke has issued notice to all municipalities, water companies and farmers to fill up their reservoirs and there after for five or six days to be as sparingly with the use of water as possible, for the entire supply of the valley, except that flowing through the Cerro Prieta Canal from the Colorado Lake to water companies Nos. 6, 8 and 12, has been shut off.

No damage has resulted to lands in the vicinity of the heading, and no injury will be done to growing crops in the valley, as a result of the end of a week.

**Fishermen-anglers are becoming
interested in the enormous develop-

California, with which
and real experts have been
brought from its very small
size of but a few years ago.**

**Results compiled by the Fish and
Game Commission already have
been far enough to indicate that
Southern California will take
rank with the long-established
Alaska fish-packing
industry in importance upon the
West Coast. While a year ago
there was but one sportfishing
vessel in six figures, and the value
of its pack will run to many**

**times as large as the
present record, it is evident
that the opportunity for
profit become that some
of the largest concerns in the world
come to the Southern Califor-
nia, drawn by albacore and
tuna. The rich, nutritious
fish, concentrated form so es-
pecially to modern military opera-
tions with their always attendant
operational problems. They are
already adapted to war use, and
are being utilized extensively in
food exports.**

**Now in the North Sea and the
disastrous disengagement incidental
have virtually stopped North
Sea fishing, while the
older population are looking
to Alaska for fish, as well as other
fish. This has made an enormous
in the demand upon fish
already loaded to the limit.
The visitors won the game in the
fifth inning as follows: Art Griggs

FOURTH OF JULY IN
SIX LANGUAGES.SPEAKERS AT PLAZA CELEBRA-
TION TO CEMENT TIES OF
WAR-BORN PATRIOTISM.

More than 500 prominent Span-
ish-Californians in Southern Cali-
fornia gathered at the Plaza of All
Nations and Allies' Fourth of
July celebration at the old Plaza,
according to an announcement
made yesterday. A member from
each of the families of the
Spanish-speaking vice-president
is in charge. In charge is Ralph
J. Dominguez, who for the past
forty-two years has officiated.
The chief purpose behind this year's
celebration is to cement the bonds of
friendship and sympathy between
Mexicans and Castilians of the
Southwest and to render innocuous
the present animosity of German
agents and propaganda invading
all portions of Mexico.

In a statement issued yesterday
Mr. Dominguez urges all companies
employing Mexicans in large numbers
to issue the same invitation to the
Plaza celebration so that they will
come away fully imbued with Amer-
ica's purpose in this war, which
means accrue to the benefit of all
Mexicans or of Mexico.

The Fourth of July Committee
includes: R. J. Dominguez, presi-
dent; Frank E. Dominguez, vice-
president; E. A. Carson, secretary;
Dr. E. Ziegler Uribarri, assist-
ant secretary.

Those who will speak are United
States District Attorney O'Connor
and Frank E. Dominguez in Eng-
lish; Italian Consul here and
Frank Ferri in Italian; Dr. J. Uri-
barri and Ralph J. Dominguez, in
Spanish; Dr. Inui, in Japanese; S.
G. Schmidt, Chin Quin Sing, in
Chinese.

The fifty-five-piece Mexican band
conducted by Prof. José M. Yáñez
rendered national airs of all countries
except the central empire, while the "Star Spangled Banner"
will be sung by a prima donna who
will be dressed in the uniform of the
army of the revolution. The band
concert will begin at 11 o'clock, the
entire celebration ending at noon.

to the local news published herein.TO THE PEACE MONGERS.
Our answer to the peace mongers who
complain of the sacrifices of men and treasure
which this war has entailed is that "Life
is precious, but not at the sacrifice of everything
that makes it worth while. National
peace is desirable, but not at the cost of
everything that makes a nation worth saving."
We shall not fail. We are aligned
with the free forces of the world and have
back of us the conscience of civilization.GERMANY'S RED CROSS.
A Canadian lieutenant, visiting in Los
Angeles, showed a local audience, as an ex-
ample of Teuton kultur, a sword-edged bay-
onet which he had taken from a German
Red Cross field worker. This is not sur-
prising, since the sword and not the cross is
the symbol of Prussianism. The only cross
which the Kaiser recognises is an iron one, symbolic of the tyranny upon
which this betrayer of civilisation would
crucify the world.PRODUCTION.
Secretary of Agriculture Houston
makes a very favorable statement of the
response of American farmers to the call
of our Allies for food. He says that farmers
planted 23,000,000 acres more in leading
food crops last year than in the previous
year. They increased the number of milk
cows by 390,000, of other cattle by nearly
2,000,000, of sheep by 1,300,000 and of swine
by nearly 4,000,000. In spite of exports
of horses and mules the breeders increased
the number by 45,000. Produce, produce!

WHEN SLEEP IS CRIME.

The attorney for the engineer of the
train which crashed into a circus train in
Indiana says that his client was ill and
asleep in the cab when the accident oc-
curred. If the engineer was ill he had no
business on the engine. If he was not ill
his falling asleep was doubly criminal.
Think of it! Scores of people killed be-
cause one man went to sleep while on duty!
In Europe today thousands are being slain
by the sword and other thousands are
dying from starvation partly because civil-
ized and truthful nations slept while Ger-
many prepared for their destruction. Dante
writes:"So full was I of slumber at the moment
In which I had abandoned the true way."

THE FAMILY PORCH.

People from the East wonder why it is
that in a land wherein so much is light and
lovable the crop of porch-dwellers is so
meager. Residents build homes with wide
and beautiful porches—sometimes extend-
ing entirely around the house and then pro-
ceed to forget that they have one. We have
heard tourists say that they have been
through almost the entire Wilshire district
in the early evening without spying a soul
on the family porch. Orange Grove Avenue
in Pasadena has probably the most beauti-
ful stretch of residential plazas in the
world, yet of a glorious afternoon the street
may resemble a deserted village. New Eng-
landers, who live on their porches—when
they have them and the weather permits—
declare that they feel an irresistible impulse
to camp out on some of our lovely but neg-
lected porches.There is some truth in the criticism. Res-
idents do not brighten up their porches with
their presence as much as they should or
could. Possibly the time of day at which
the tourist inspectors are abroad has some-
thing to do with the report. Also it is prob-
able that the dwellers, instead of being on
the family porch, are abroad in the family
auto garnering still larger portions of the
air and sunshine than even the home ve-
randas can furnish. At any rate, they are
not suffering for climate, even if the porch
does seem neglected.

THE MINUTE MAN.

What Uncle Sam will need will be an
emergency corps in the Home Guards. This
body might be made up of efficient in two
classes—above, and below the draft age.
They should be handy men—persons deaf
with the pen, the saw, the lathe, the hoe,
the monkey wrench, the hammer, the trowel,
the pick and what not and should be
enlisted and enrolled for service wherever
it would be greatest for their country's
good. They should receive a minimum of
two dollars a day, with additional pay
wherever the character and extent of the
work carried it. When they enlisted full
record should be made of their abilities,
their personality, their dependents and
their preferences, and these records should
be considered by the boards assigning them
to service. They should be open to pro-
motion for conspicuous seal or merit and
should have a simple and serviceable uni-
form that could be worn with honor. They
should be capable of bearing arms—and
using them, though it should not be re-
quired of them as the day's work.They should be, as the name would im-
ply, a body of minute men, capable of han-
dling any emergency to which the nation's
needs might call them. Probably there
would never be a suggestion of conscripting
labor were a mobile army of the character
thus roughly outlined to be made available.Such an army of volunteers would not
only preserve the peace, but preserve the
corn crop. They would be ripe for any un-
dertaking on their home soil and, though
in public service, their cost would come
from private enterprise.ANTI-USURY LAWS.
At while there is a unanimity of opinion
that the cause of justice was served when
five hundred indignant citizens forced a Los
Angeles money lender to make restitution
last week to the mother of two soldiers
fighting in France, the sober fact remains
that he was within his rights, according to
the letter of the law, when he was about to
seize her property to satisfy a claim for
what, in equity, was extortiorate interest.
The only justification for the threatened vio-
lence was the fact that there was no legal
redress. It reminds one of the famous com-
ment of Mars Henry Watterson concerning
lynch law. "Lynching is never justifiable;
but it is sometimes expedient."It is not conducive to good citizenship,
however, to permit an appeal to mob law
to become a habit. The Secombe case has
served to focus public opinion on the in-
evitable defects of the State's financial
laws. There is not another State in the
Union in which a chattel mortgage for \$200
could grow into a legal demand for \$1300
within a period of three years. Under the
former Johnson administration California
became known as the loan sharks' paradise.
They flocked here from all over the United
States and Canada because they could operate
here under the protection of the law and
were safe, so long as they came through
regularly with their contributions to the
campaign funds of the machine. Every impor-
tant amendment to the financial laws of
the State during the last eight years has
been favorable to the loan sharks.Anti-usury bills have been introduced reg-
ularly at the sessions of the Legislatures,
but they were either killed in committee or
vetoed by the Governor. The usurers formed
an integral part of the State machine.
Grown weary of introducing bills that were
always beaten, a number of the most pro-
nounced opponents of the loan sharks have
taken the preliminary steps necessary to
secure the circulation of an initiative peti-
tion submitting a usury bill for a vote of
the electors of the State in the November
State election. The bill is a duplicate of
one introduced by Senator Brown of Los
Angeles in the 1917 Legislature. It fixes
the rate of interest on accounts after de-
mand or on judgments at 7 per cent. per
annum; it provides, however, that "It shall
be competent for parties to contract for
the payment and receipt of a rate of inter-
est not exceeding twelve dollars on the one
hundred dollars for one year and not ex-
ceeding that rate for a greater or less sum
or for a longer or shorter time, in which
case such rate exceeding seven dollars on
one hundred dollars shall be clearly ex-
pressed in writing." One would be indicted
to call such an act an anti-usury law; but
the petition expressly prescribes that "This
act, whenever cited, referred to or amend-
ed may be designated simply as the 'usury
law.'Before this law can be placed on the No-
vember ballot petitions must be signed by
25,000 qualified electors of the State, and
these signatures must be secured within the
next two weeks. The form of the usury
law has been approved by the Attorney-
General of the State; its context is gen-
erally approved by the bench and bar of Los
Angeles. The District Attorney's office is
outspoken in its favor. It has not received
the endorsement of banking institutions,
however, for the reason that it contains
so much of what they term extraneous mat-
ter. Its detect lies in its volume. Its pro-
ponents sought to accomplish too much. If
the petition had been limited strictly to
usury as relating to rates of interest it
would be admirable. A single section, care-
fully worded, could settle the rate of inter-
est beyond cavil. But the proponents of the
act want to take in other things that high
rates of interest; they go into practices
that should be regulated in banking acts,
and they would use the general sentiment
for a usury bill to carry along what the
bankers very properly term "extraneous
matter."There are some who suggest that the loan-
shark men themselves succeeded in getting
the scope of the bill widened in order that
legitimate banking interests might be led
to oppose it. The temper of the people is
such at the present time that they will no
longer temporise with usurers. A bill limit-
ing the rate of interest to 7 per cent. when
no rate is stipulated and to 12 per cent
under contract would carry in the State
three to one. But there is a wide division
of opinion over some of the restrictions
placed about fees, commissions and assignments,
a division that will be certain to
cost the act many votes in the general elec-
tion.The Times would prefer a constitutional
amendment fixing a rate of interest for
judgments and contract loans, an amend-
ment passed by the Legislature and submitted
by that body to the electorate for ratification.
The interest rates named in the
present initiative are not objectionable;
but there is a curse hanging over direct
legislation which mars whatever it touches.
The initiative amendment proposed, despite
its possible defects, is a marked improve-
ment over the present usury laws. It would
at least make it impossible for Secombe
and others of his stripe, to charge 200 per
cent. per annum on a loan and still keep
within the letter of the law. The Times is
inclined to favor its passage, while a sub-
stantial constitutional amendment is being pre-
pared by the Legislature and submitted for
ratification at a future general election.

THE FRENCH FLAG.

France is preparing to celebrate the
American Fourth of July. On that day in
France the American flag will be every-
where flown; the statue of Washington
will be decorated by the French with flowers;
and in the schools French children
will be told the meaning of the American
Fourth of July and of the friendship be-
tween France and the United States. A
graceful compliment!Let us, here in the United States, return the
compliment. Let us observe the French
Fourth of July, or Day of Independence—
July 14. On that day, here in Los Angeles,
let every one hang out a French flag.On July 14, 1789, the Bastille, symbol of
autocracy and oppression, was destroyed.
With the fall of the Bastille, French democ-
racy triumphed. Now, on this Fourth of July,
and on this Fourteenth of July, Americans
and French soldiers will be fighting
side by side to perpetuate the democracy
which their forebears won.They should be, as the name would im-
ply, a body of minute men, capable of han-
dling any emergency to which the nation's
needs might call them. Probably there
would never be a suggestion of conscripting
labor were a mobile army of the character
thus roughly outlined to be made available.Such an army of volunteers would not
only preserve the peace, but preserve the
corn crop. They would be ripe for any un-
dertaking on their home soil and, though
in public service, their cost would come
from private enterprise.What has become of the advocate of na-
tional unpreparedness of yesterday?**How Things Have Changed!****OLD HOME WEEK
OVER MIT STUTTGART.**(EXCLUSIVE DISPATCH BY AIRLINE)
STUTTGART (Germany) May 22.
[Delayed somewhat by those English.
Relayed via Amsterdam, Luchow's Hoofden Haven and Turn Halle.]—Old Home Week was celebrated here in Stuttgart this week. Ach! What a good time was had by all!

All the old boys was back. From all parts of the Fatherland they came, wearing their sashes and corps caps from the old university days, and each carrying a pocketful of bread cards, pretzel cards, cigar cards, beer cards, so that a good time could be had.

Two days the celebration lasted al-
though the weather was bad. The Schleswicks Kadets, the Swiss-
cheese Verein, the Hock the Kaiser
Stadtverein, the Kellner Maen-
ner Chor, the Plattdeutscher Verein and
Bismarck Herring Saenger-
bund.They marched down the Königs-
strasse, singing the good old college
songs, and then gathered in the
Schlossplatz in front of the statue of the
König Wilhelm where the Burgemeister was
giving messages from the Kaiser:"Imperial Dignity far to the rear
of the western front."
To the old college boys of
Stuttgart, Imperial greeting. As
you celebrate Old Home Week
remember me and, if you find anything to eat, slip it to yours-
truly.

Wilhelm, Imperial Rex."

The second day was given up en-
tirely to beer.I must record for my American
readers one regrettable incident.It happened at the reunion of the
boys of the Akademie. To each of the absent
brothers a toast was proposed by the
Toasterkommandeur."I propose (Max) a toast to Herr Max Von Ihmense, class of '96,
a loyal G—"That was all the further he got, for
there was a chorus of hoots and beer steins
were pounded on the tables and there were cries of "Nein! Nein!" He is das faithless Amer-
icanisher. Raus! Raus!"Der Ober-Kommandeur who was
presiding was finally able to bring
the meeting to order and, producing
a large cask of beer, he always
drank from one thing to the next.

Finally stood on a beer-top (blacketfeischtostfest) Herr von Rinderbrust who desired to make a speech. He said:

"Kamarads! Why do you thus
hoot that goat friend of our Kaiser's, Max? Did he not live here and drink
beer among you? Was he not a
loyal son of Stuttgart?""And now he is not here today and
because he is in America you hoot him.
Hoot him not I say. He is one of us. He is loyal to the Father-
land of his forbears."In New York he ran for public
offices, what you call das Oberbürger-
meister. He was defeated, but up in
the Bronx—ach, up in the Bronx—
golly, how they like him!"He works for that great friend of
Germany, the supreme friend of Ger-
many, that admirer of our All High-
est—i.e. of our Kaiser Wilhelm. Rudolf
Hirsch, called in America, hated
the English language. Hurst or
Wurst."Cheers was given for Hirsch or
Hurst. Rinderbrust was winning the
crowd."Hirsch hates this war," (Rinder-
brust continued.) "As soon as he
thinks he can get away with it he
will take Amerika out of the war. The
Vossische Zeitung said: 'Not a
day passes in which he (Hurst) does
not write something that is not
successively accepted by all bairns.'Under the protection of the United

TRADE IN WALL STREET RESTRICTED BY WAR NEWS

British Premier's Warning Causes More Cautious Speculation.

(BY A. P. NIGHT WIRE.)

NEW YORK, June 25.—Trading in stocks today lacked the breadth and uniformity of the previous session. The warning of Britain's Premier as to the imminent of another German drive seemed to offset the further achievements of Italy's troops and accounted for the irregular tone of the close.

Foremost banking interests evidently attached little significance to the utterances attributed to Germany's Foreign Minister, in which responsibility for the world conflict was placed chiefly upon Russia with intimations of retention of Teutonic control over Belgium.

Domestic developments exerted no marked influence, the several regular dividend declarations being in line with general forecasts. Rock Island Railway directors and expected to make additional dividend announcement at noon.

A preponderant share of the day's business again centered in United States Steel, Bethlehem Steel, Baldwin Locomotive, Marine, Preferred, Illinois, and tobacco. Railroads were dormant, except for Reading and a few low grade oilers, mostly at moderate gains.

United States Steel made an ex-

COTTON PRICES RISE ON SHORTS' COVERING.

FEW DELIVERY NOTICES ON JULY CONTRACTS STARTS RUSH TO COVER.

(EXCLUSIVE DISPATCH.)

NEW YORK, June 25.—A very

sharp advance occurred in contract

prices for the general line in the cot-

ton market today. It was almost

entirely due to the big rise in July

contracts, which in turn was the

result of the surprisingly small

amount of "notices" for de-

livery on July contracts issued from

the opening today. It was the

first day they could be sent out for

actual deliveries on July 1. As far

as could be learned, there were only

two or three issued, calling for 100

bales each.

At this price the maximum ad-

vance from yesterday's closing is 150

points, or 75 cents.

It is said at 25.05 cents in the

decline which culminated on May

22 when October of the new crop

sold as low as 21.51. December 22.44

and January 22.35. The latest rise in July contracts offset the rather dull and easier Liverpool ca-

ble and also the better weather for

tonight and tomorrow. It came

on covering contracts made in all

the new crop months and at

the same time influenced consider-

able new local and trade specula-

tions in those deliveries.

All these were up 75 to 80

points over yesterday's closing by

2 o'clock. October advanced to

near the basis of 25.5 cents, while

December sold at 25.05 and January

24.35. It was not until the

covering session on July 1 that

the covering demand seemed to

run out and fresh supply of con-

tracts came on the market in the

time of price-taking sales and some

new selling orders from the

South sent prices off to 20 points.

This fluctuation, however, was re-

garded as merely a natural reac-

tion considering the extent of the

newly advanced trading. Trading was

moderately active. Covering of

shorts not only made the high price

for July, but also in the new crop

months.

Prices reported today the National

Gimmers' Association, "prelimi-

nary" crop report was out for the

end of June and made the condi-

tions of the crop 25.05 cents, while

January 24.35. It was not until

July 1 that the government's report

was 25.2. Also that its report on

the acreage made the increase about

4 per cent.

Well selected Street Improvement bonds offer a wide margin of safety. High-grade bonds held by the city are now issued in odd amounts from \$25 up, their value being determined by the amount of money to be spent on them. This means to put small sums to work as fast as they are available.

Bonds becoming available are gradually increased by small amounts continually added to by increases in the cost of living.

These bonds will steadily grow to substantial investments.

Americanization Commission will Hold Meeting.

Short Addresses to be Made by Many Speakers.

Patriotic Movement Spreads to Other Places.

A patriotic mass meeting under the auspices of the Americanization Commission, July 2, at 8 o'clock, in the auditorium of the Bible Institute, Hope and Sixth streets. The principal subject for consideration will be "Americanizing the un-Americanized via Americanization of the Alien."

A series of short talks will be made by Judge E. F. Blodow, Frank P. Flint, Mrs. Frank Gibson, Emmanuel J. Jack, Judge Walter Johnson, Mr. Robert Shibley, Superintendent of City Schools; Rt. Rev. Bishop Cantwell, Rt. Rev. Bishop Johnson, Marshall Stimson, Chairman of the four-minute men; Dr. E. D. Clegg, Director of the Normal School; C. M. Fetter of the Union Labor Temple Association and others.

The speakers assigned to the different speakers are as follows:

"The Obligation that Democracy Places on the Native Born;" "The Obligation that Democracy Places on the Foreign Born;" "The Responsibility of National Unity while the President Exits;" "The Part that the Foreign Born are Taking in the American Army and Navy;" "The Contribution of the Foreign Born to the History of America;" "The Contribution of the Foreign Born to the America of Today;" "The Absolute Democracy of the Draft;" "The Impossibility of National Unity Unless Every Citizen Becomes an Effective Unit;" "The Necessity for All to Learn the English Language of America."

L. N. Brunswick, director of the Americanization Commission for Los Angeles county, will preside.

ADDS HALF MILLION.

Council, Sitting as Committee of the Whole, Completes Work on Money-raising Ordinance.

The revised license ordinance will probably be enacted next Monday, the Council sitting as a committee of the whole, having completed the final draft yesterday afternoon. It is expected the new measure will add \$500,000 to the city's annual revenue.

Councilman Olsen endeavored yesterday to get the Council to place a prohibitive license upon brewers who sell to retail trade, but his proposition was given no support. The matter, however, will be presented again at an early date, it was stated.

Mrs. Margaret McKee, whistler, is the godmother of the unit and will give several selections.

The four members of the glee club, headed by Clyde Collison as director, Mr. Collison was born in local musical circles before he became a conductor.

He is Neil Parker, former organist at the First Methodist Episcopal Church here.

Tickets for the benefit concert will be on sale at Trinity Church.

Admission Saturday at 50 and 75 cents each. The concert commences at 8 o'clock in the evening.

**SEND WRONG
MAN TO JAIL.**

Charged with Sedition, Prisoner Begins to Serve Death Sentence.

The mills of justice exceeded all known records for speed in the police courts yesterday when a man arrested on the charge of making seditious remarks found himself serving a ninety-day jail sentence without even being brought before a judge.

The case was brought to attention when the clerk in Judge Chesebro's court called the name of John Summers, arrested by a war squad operator for disturbing the peace. The ballad herded a Mexican into the dock. To all the court's questions he merely replied:

"No savvy."

Then it was discovered that the Mexican had been sentenced the day before to serve ninety days in the East Side jail on a drunk charge, and that through an error Summers was sent to the jail in his stead, and the Mexican was brought to court. The case was continued until today, when an effort to straighten out matters will be made.

**KEARNY GLEE CLUB
TO GIVE NEW SONG.**

**CARRIE JACOBS BOND
POSES SPECIAL NUMBER
FOR HOSPITAL MEN.**

A song written especially for the club of Base Hospital No. 25 by Carrie Jacobs Bond will be one of the features of the concert to be given by twenty-four singers from this Camp Kearny unit at Trinity Auditorium Saturday night. "Ten Thousand Times Ten Thousand" is the name of the song. Mrs. Bond, who is composer of "A Perfect Day" and other popular numbers, will herself take the piano when the glee club sings the piece.

The concert is in charge of the women's auxiliary of Base Hospital No. 25. This society consists of wives, mothers and sweethearts of the soldiers, who band together to supply them with hospital garments and many little comforts and necessities. The entire proceeds of Saturday's concert will be used for this purpose.

Mrs. Margaret McKee, whistler, is the godmother of the unit and will give several selections.

The four members of the glee club, headed by Clyde Collison as director, Mr. Collison was born in local musical circles before he became a conductor.

He is Neil Parker, former organist at the First Methodist Episcopal Church here.

Tickets for the benefit concert will be on sale at Trinity Church.

Admission Saturday at 50 and 75 cents each. The concert commences at 8 o'clock in the evening.

**CITY SEEKS RIGHT TO
MAKE IMPROVEMENTS.**

Approval for Many Projects Asked of Capital Issues Committee.

BECAUSE the laws governing public improvements in Los Angeles are different from those in most other American cities, City Attorney Stephens does not believe that the general order promulgated by the Capital Issues Committee should apply to local projects. Yesterday he received a letter from the committee stating that it desires to pass upon the question of bond issuance just prior to their proposed issuance and that the city may proceed with the projects up to that time.

If the city should follow this programme, acting under the Vrooman Act or the 1912 Improvement act, a considerable sum would be spent before a report could be received from the Capital Issues Committee, and that money would be a total loss in the event the bond issue was not approved. As a result, the City Attorney has proposed that proposed improvements and will forward them to the Capital Issues Committee today. If approval is given to any of them, then the city may proceed in proceeding with the projects.

Following are proposed improvements: Reseda avenue, \$140,000; Van Ness avenue, \$34,000; Oregon avenue, \$52,000; Eighteenth street, \$10,000; Leimert park, \$25,000; Alameda street, \$37,000; Coleman avenue, \$25,000; Hartford avenue, \$59,000; Covina Avenue, \$14,000; Franklin Avenue, \$45,000; Grand View street, \$22,000; Glendale Avenue, \$45,000; Hillside Avenue, \$21,000; Valley west of State street, \$67,000; First and Parker streets, \$14,274; Husted street, \$23,000; Gramercy place, \$33,712; Hazelwood Avenue, \$15,400.

Street improvements for which bids have been received and contracts awarded but not executed: Carroll street, \$11,415; Second street, \$11,500.

Proceedings where the trial for condemnation of necessary land has been held: Opening of Sixteenth street from Pacific to North street, \$150,000; Forty-ninth street, \$113,645; Avenue A, all costs paid; Aradah avenue, \$2750; Cypress Avenue, \$20,000; Glendale and Verdugo Park, \$25,000; Hillside Avenue, \$20,000; Hazelwood Avenue, \$20,000; Vermont Avenue, \$10,000; Seventy-fourth street, \$900; Vermont Avenue, easterly side, \$2500.
